

CD International School Annual Report

2021-22

We live in a world where the current situation has shaken everyone's lives, especially COVID-19. Because of the strict guidelines by the governments worldwide, multiple institutions, and organizations have implemented a work-from-home policy for the betterment of the environment.

We've often heard everyone saying, "Aaj ke Bache, Kal ka Bhavishya" which means our kids are our future because we believe our kids are the most valuable assets for the future. And, according to the most recent updates, they are the most vulnerable bunch of youngsters that might fall victim to this pandemic if they are not properly and healthily fed. Most schools, like ours in several nations, were closed, yet education must continue.

High school students can manage their studies independently, while students in primary or nursery school cannot. As a principal of CD International School, I believe home-based education was regarded as an approachable notion, yet school education is also important which not only educates us but also improves and fosters the character of engagement inside the kids. Every course has specific characteristics that cannot be met with homeschooling. Because of advances in technology, this digital world has brought the convenience of schools and colleges to the homes of each student.

ANNUAL REPORT 2021-22

We thank our teachers for molding themselves into the world of the internet that has influenced every corner and has enabled school education to reach all corners. Our teachers provided every education platform that is linked to the internet to students with easy access to learning possibilities.

This 2021-2022 report summarizes the successes of the previous year while also charting the roadmap for greater success in the years ahead.

- The semester began as usual with the Orientation Programme for parents of Pre-Primary through XI students. We provided parents with information about our school's educational curriculum through the program.
- Complete digitization of the school was implemented to keep up with the pace of the current world, implementing more digital technology to revolutionize the entire school duties channel, improving transparency and enhancing communication with parents.

- On May 26, our guest speaker, Mr. Anuj, provided training to school faculties on uploading question papers into the school ERP system.
- This year's Periodic Assessment -I was held in the second week of July (2021) with the primary objective of measuring students' progress in learning. Teachers gained insight into their students' needs through regular assessment.
- A Half-Yearly examination was also held during the second week of September with the aim of motivating students and improving their problem-solving capabilities.
- The school held its second Periodic Assessment -II in the second week of December to build students' confidence before they take the Board exams.
- We, at CD International School, believe that our students will fulfill their goals with flying colors in the future. This is why, like any other system, ours held an Annual Examination in the time of the first week of March to allow students to exhibit their talents and knowledge while also showing how near they are to achieving educational goals and standards.
- Late Rao Ganga Bishan Ji, the founder of the CD Group of Schools, is commemorated on November 11. Dr. Yashpal Yadav, our Group Director, organized a Blood Donation Camp on November 11, 2021 to bring about change in the lives of all individuals via education, which holds the key to transformation. The primary goal of this blood donation drive was to give children and women social, educational, and economic empowerment.
- We bid farewell to the students of Class XII, wishing them a bright and fruitful future. The respected editorial board bestowed blessings on the students, and they sought the Almighty's blessings.
- As we are still experiencing a pandemic throughout the country, the CD International School, Gurugram is conducting classes virtually till date. In spite of all these difficulties, our board members remain committed to awarding prizes to our merit students once everything is stabilized.

EDUCATIONAL WEBINAR

Providing regular teacher training, which includes virtual and physical training, helped keep our teachers on the same page about worksheets, which are often loose pieces of paper with questions for students to complete.

DATE	TOPIC	MODE	SPEAKER
May 4	How to Prepare Worksheets	Online	Organized by Indianica Pvt. Ltd

	Finger Painting	
	Photography Day	
	Raksha Bandhan Activities	
	National Sports Day	
	Janmashtami Celebrations	

Historically, sports have been associated with fitness since they require physical activity. In the eyes of a sportsperson, sports are the highest form of worship. Their lives revolve around sports, so participating in such activities is highly valued and adored by them. The key to consistency in any endeavor is to enjoy it and be enthusiastic about it. No superpower can stop you from giving your best in any sector when you are consistent.

CD International School students engaged in multiple sports competitions including inter-school, intra-school for our younger generation to engross in enjoyable fitness that brings out the hidden sportsman spirit from them.

Basketball, Kho Kho, Kabaddi, Football, Gymnastics, Long Jump, High Jump, Shot Put are types of games that complement academic education and learning. It develops a personality, instills qualities like; honesty, punctuality, discipline, leadership, adherence to the norms, teamwork, and so on.

CONCLUSION & WARM REGARDS

The amount of information available today overwhelms our ability to understand. Fortunately, the demographic dividend is knocking at our door. Let the wonderful colors of knowledge enter by breaching the cocoon. As we harness the power of young minds in the future, I am confident that their potential will be tapped to the fullest extent possible.

Last but not least, we would like to thank the supporting administration for their unwavering support of our educational philosophy. We should recognize teachers and the entire team for their perseverance in executing this road map.

Also, we would like to express our deep gratitude to the parents of our students, who entrusted us with the tremendous task of transforming their children into helpful citizens of the future.

The world will be a lovely place to live when our children will be the driving force of change and the future will be full of global uniqueness!

Thank you very much!!!!
